**St Hilary's Prep School Policy** 

# **SMSC Policy**

At St Hilary's School we recognise that the personal development of pupils, spiritually, morally, socially and culturally, plays a significant part in their ability to learn and achieve. We therefore aim to provide an education that provides pupils with opportunities to explore and develop their own values and beliefs, spiritual awareness, high standards of personal behaviour, a positive, caring attitude towards other people, an understanding of their social and cultural traditions and an appreciation of the diversity and richness of the cultures.

#### Guidelines

All curriculum areas have a contribution to make to the child's spiritual, moral, social and cultural development and opportunities for this will be planned throughout the curriculum and all areas of school life.

All adults will model and promote expected behaviour, treating all people as unique and valuable individuals and showing respect for pupils and their families. The school community will be a place where pupils can find acceptance for themselves as unique individuals and where forgiveness and the opportunity to start again is fundamental to the ethos of the school.

Pupils should learn to differentiate between right and wrong in as far as their actions affect other people. They will be encouraged to value themselves and others. Pupils should understand the need for rules and the need to abide by rules for the good of everyone. School and classroom rules should reflect, reiterate, promote and reward acceptable behaviour and provide opportunities to celebrate pupils' work and achievements.

As part of SMSC, we actively promote democracy, the rule of the law, individual liberty, and respect those with different faiths and beliefs. These are fundamental British Values which underpinal I that we offer, as does our School Motto 'Not for oneself but for all.'

All curriculum areas should seek to use illustrations and examples drawn from as wide a range of cultural contexts as possible. This will be reflected in teacher's planning and teaching and in the resources the school makes available.

#### **General Aims**

- To ensure that everyone connected with the school is aware of our values and principles. (see PSCHE Policy which includes Mission Statement and Values.)
- To ensure a consistent approach to the delivery of SMSC issues through the curriculum and the general life of the school.
- To ensure that a pupil's education is set within a context that is meaningful and appropriate to their age, aptitude and background.
- To ensure that pupils know what is expected of them and why.
- To enable pupils to develop their self-knowledge, self-esteem and self-confidence.

- To give each pupil a range of opportunities to reflect upon and discuss their beliefs, feelings and responses to personal experience.
- To understand that there is freedom to hold other faiths and beliefs and that this is protected by law.
- To enable pupils to develop an understanding of their individual and group identity.
- To enable pupils to begin to develop an understanding of their social and cultural environment, and an appreciation of the many cultures that now enrich our society.
- To give each pupil the opportunity to explore social and moral issues, and develop a sense of social and moral responsibility and understand the importance of identifying and combatting unfair or illegal discrimination.
- To enable pupils to acquire a broad general knowledge of and request for public institutions and services in England.
- To understand how citizens can influence decision-making through the democratic process.
- To encourage a respect for democracy and support for participation in the democratic process, including respect for the basis on which the law is made and applied in England and is essential for their well-being and safety.

#### **Teaching and Organisation**

Development in SMSC will take place across all curriculum areas, within activities that encourage pupils to recognise the spiritual dimension of their learning, reflect on the significance of what they are learning, and to recognise any challenges that there may be to their own attitude and lifestyle.

All curriculum areas should seek illustrations and examples drawn from as wide a range of cultural contexts as possible. Class discussions across all subjects, but particularly PSCHE, RS lessons and circle time will give pupils opportunities to:

- Talk about personal experiences and feelings.
- Express and clarify their own ideas and beliefs.
