

St Hilary's School

International Policy

Introduction

St Hilary's School believes that it is important, in an increasingly global community, that the children are aware of their place in the world. We believe that the children can learn through sharing experiences of different countries around the world and that this develops an understanding and tolerance of different cultures and people, as well as raising awareness of their own national identity.

We actively promote democracy, the rule of the law, individual liberty and mutual respect and tolerance of those with different faiths and beliefs. These are fundamental British Values which underpin all that we offer, as does our School Motto 'Not for oneself but for all.'
